INDRIYA ADVENTURE PARK

Set beside a serene stretch of scenic backwater and the beach in Kuzhupilly, Cheral, the Indriya Adventure Park is a part of the Indriya Group of Hotels and Resorts. Also situated beside Indriya Sands, guests at the park get to experience a diverse set of adventure activities staged on a high wire and water sports on the backwater, both, conducted by professionally trained staff and supported with the latest in safety equipment.

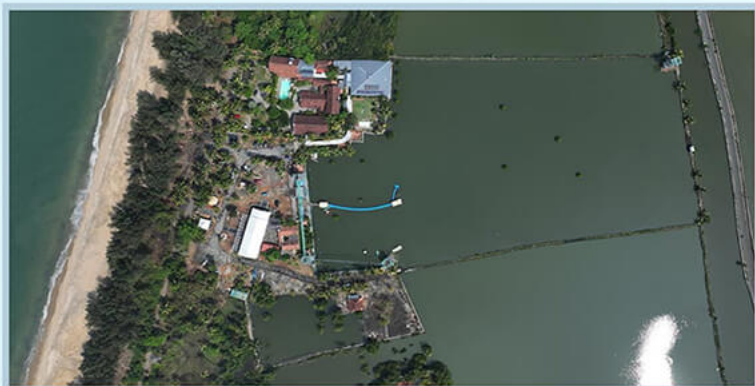

At a height of 50ft, on a rectangular circuit, guests attempt a set of four stage challenges on zip lines, rope and glass bridges stretched out over 750 meters across the water and connected to five towers. Climbing the first tower they are first launched on a two stage ride on a pair of zip lines. Trained personnel strap a participant into a safety harness that is connected to an overhead cable with a pulley. You slide along the cable over the water to the second tower. At the second tower you dismount to be harnessed to a safety line and climb on a bicycle that is tethered to an overhead cable and ride a distance along another cable strung beneath. The challenge and the accompanying thrill here is to be able to maintain one's own and the bicycle's balance on the cable and riding high above the water to the third tower, holding one's nerve through it all. On reaching the third tower you dismount the bicycle to step into your next adventure. This involves crossing a stretch over the backwater across a rope bridge featuring two challenges that once again test one's sense of balance mentally and physically, a stretch of longitudinally aligned planks tethered to retaining ropes and then a stretch across rubber tyres. Reaching the fourth tower the final stretch is relatively simple. Release your harness and cross a glass bridge. The sand beneath your feet is visible and sunsets over the Arabian Sea to the west are special should a guest chose a late afternoon to attempt the challenges.

The backwater at the Indriya Adventure Park is brackish and serene, the surrounding landscape picturesque. Guests step up, across the water's edge onto a floating bridge, an entirely safe and delightful experience. There are water cycles too, a country boat to row or else a Kayak, a small narrow boat, pointed at both ends. Experience living in a shoal tent or simply float across the water on a stand up paddle raft.

Groups of travellers in a caravan could park in our Caravan Park or else camp on the beach. The management will provide tents and catering if required. Guests get to use the toilets and washrooms at the adventure park besides availing of the restaurant and swimming pool at Indriya Sands. Camping on the beach is indeed a memorable experience, lulled by the sound of waves - serene and seductive with spectacular sunsets and magical nights.

Guests could also opt to stay in our tent camp set on rafts on the backwater and on the beach as well. Guests get to avail of the restaurant and swimming pool at Indriya Sands besides the toilets and washrooms at the adventure park.

ADVENTURE - Sky Rope Activities

Zip Line

Ride solo or in tandem, safely harnessed to a pair overhead cables and pulleys. An adrenalin rush is guaranteed as you swoop 50 ft above the water and a scenic landscape, the wind in your face, and dismount at a tower at the end of the line.

Sky Cycle

Harnessed to a safety line ride a bicycle that is tethered to an overhead cable and along another cable strung beneath. The challenge and the accompanying thrill here is to be able to maintain one's own and the bicycle's balance in the course of this ride.

ADVENTURE - Sky Rope Activities

Glass Bridge

Release your harness and cross a glass bridge with a view of the ocean on one side and the backwater on the other. The sand beneath your feet is visible and sunsets over the Arabian Sea to the west are special should a guest chose a late afternoon to attempt the challenges.

Log to Log Walk

An activity where the participant walks across the narrow ends of logs of differing lengths arrayed in a line and tethered to a rope with another rope that serves as an overhead support. An activity that tests one's sense of balance, muscle co-ordination and body awareness.

ADVENTURE - Sky Rope Activities

Plank Walk

This is an adventure that tests one's sense of balance mentally and physically, crossing a stretch of longitudinally aligned wooden planks tethered to a rope bridge over the backwater.

Tyre Walk

Another test of physical and mental balance that involves stepping over rubber tyres tethered to a rope bridge. Can be tricky and interesting as well, gingerly stepping over the slightly wobbly, rubber edges of the tyres where you can see the ground beneath your feet.

ADVENTURE - Sky Rope Activities

Hanging Bridge

Also known as a suspension bridge, rope bridge or a hanging bridge in which the deck of the bridge lies on load bearing cables anchored at both ends. Seemingly precarious adventure traversing the distance across the bridge, but safe. Superlative views are an added incentive.

WATER SPORTS ACTIVITIES

Floating Bridge

Extending 500 meters over the backwater this is essentially a pontoon bridge over a type of air tight device used to add buoyancy to a structure making them water resistant and unsinkable. Situated at the edge of the backwater, a seemingly unsteady nevertheless safe walkway over the water.

Surfing (Stand Up Paddling)

A raft shaped like a surf board that serves as a platform laid on the water and a participant steps onto the raft with a paddle and standing up attempts to paddle the raft across the backwater. A test of body balance and dexterity and a learner's introduction to beach surfing.

WATER SPORTS ACTIVITIES

Water Cycle

Quaint attraction at the park, a watercraft also known as a 'Pedalo' is powered by the action of a solo guest pedalling in order to turn a paddle wheel and the direction controlled by handlebars. Particularly suited to calm backwaters.

Kayaking

A narrow single seater boat that is light with tapered ends, where one uses a double - bladed paddle to row across the scenic backwater. The boat features an enclosed seat with an opening in which the paddler sits with the legs extended straight out in front.

WATER SPORTS ACTIVITIES

Pedal Boat

Similar in operating principle to a water cycle, a pedal boat is a twin or four seater boat that is propelled by the action of foot pedals connected to a propeller that in turn enables the boat to move in a chosen direction controlling a rudder at the rear.

Country Boat

A boat made of wood and rowed by a set of oars, the boat ride may be experienced alone or with a group, all that one requires is a strong pair of hands to man the oars or else row in tandem with a companion.

WATER SPORTS ACTIVITIES

Rain Dance

After the exertions of the day, or if you're simply in the mood to party, ideal to cool off beside the backwater, under an array of overhead showers that simulate rain, grooving to the latest beats under coloured lights. When your feet want to dance, your heart chooses the rain.

EVENTS & DAY OUT

Beach Wedding

Most definitely an unforgettable memory, being married on a tropical beach. A special occasion in a special locale. Go ahead and exchange vows out on the beach with the wind in your face and a spectacular sunset for a backdrop. We'll take care of everything else.

Corporate Day Out

Motivate your team, give them an incentive for targets achieved or else brainstorm a new idea, step right into our indoor and outdoor venues simply perfect for your corporate day out and meetings.
